

I was highly upset to hear that I might be losing my K-LOVE. This station means so much to me as a resident of this local community. But to know that people around the world are all listening to and worshiping with the same music I am, it makes me realize that I am part of a much larger and more important community, that of the Christian community.

I happen to be lucky enough to be in an area where I have overlapping signals so that I never have to be without my K-LOVE. I know that there was such an excitement and a feeling of community and connectedness when the New Braunfels station came up at my church. There was one thing outside of church that we could all do together and feel a part of. No matter where we were, we knew that we were all connected through the music and message of K-LOVE. Even our children enjoy and ASK to have the radio changed. My son is 2 ½ yrs and asks for “the rockin’ Jesus music”.

I know that this station is such a calming force in my life and in the lives of my friends. When I am having a stressful day, I just take a minute and listen to the song and my focus returns along with my peace. I hate to think of how we would be affected if an LPFM broadcaster providing other programming displaced K-LOVE. With all of the commercials and other messages... They say the what comes out of you is what you put into you. It is so much easier to be a good citizen to my community when I am feeding my soul daily with the positive message of K-LOVE. On top of the normal messages on K-LOVE there are also all of the charitable organizations that they donate air time to. This is such a wonderful way to get people involved in both their local community but also the greater community of the world at large.

Being Christian, I feel that any means to gently witness to others is a valuable service. I have all kinds of people in and out of my car and my office where I listen to K-LOVE and so often I am granted the opportunity to answer “Wow, this is great music. What station is it?” with “This is K-LOVE. It is positive, encouraging and commercial free. You should try it.” So often this is just the opening need to help lead a person to God. Through the ministry of K-LOVE approximately 12,000 people per year are saved and turn their lives over to Christ. In this day where we are fighting for so many good things and against so many large, powerful, evil things, don’t you think that we need a national (on-line – world wide) positive, encouraging radio station to help remind us what we are fighting for?
